Sol. PM Modi to Lay Foundation Stone for ₹25,016 Crore Coal Gasification Project in Odisha

Prime Minister Narendra Modi will lay the foundation stone for a ₹25,016 crore coal gasification project at Lakhanpur, Jharsuguda (Odisha). The project will be developed by Bharat Coal Gasification and Chemicals Limited (BCGCL), a joint venture of Bharat Heavy Electricals Limited (BHEL) and Coal India Limited (CIL).

The facility will be India's first commercial-scale coal-to-ammonium nitrate plant, producing 2,000 tonnes of ammonium nitrate per day using indigenously developed coal gasification technology by BHEL, strengthening India's energy security and reducing import dependence.

Spread across 350 acres, the project has received all statutory clearances and ₹1,350 crore under the government's coal gasification incentive scheme. It is expected to serve as a model for future coal gasification projects in the country.

The coal gasification programme is expected to attract ₹2.5–3 lakh crore in investments, create around 50,000 direct and indirect jobs across 25 projects, and help reduce India's annual ₹2.7 lakh crore chemical imports by converting domestic coal into value-added products such as methanol, urea, and ammonium nitrate.
